Ben E. Keith GLN Information .....	2
Implementation Overview .....	2
Product Image Specifications .....	4-5
GDSN Foodservice Attributes List .....	6-23

## Overview

Ben E. Keith implemented Global Data Synchronization Network (GDSN) to receive accurate, complete, and timely product content from its supplier partners. Ben E. Keith requires suppliers to utilize GDSN as the method to send their product content. This document is intended to assist suppliers in understanding the attribute requirements and steps to start synchronizing the product content with Ben E. Keith via the GDSN. Ben E. Keith requires suppliers to publish all the Foodservice GS1 GDSN Attributes as referenced in the link in section 3.3. For synchronizing product content with Ben E. Keith via the GDSN, suppliers will need to subscribe to a GDSN certified data pool such as Syndigo.

## **Ben E. Keith Data Synchronization Information**

### **GDSN / Data Synchronization Contacts**

**Name:** Steve Reiling

**Email:** [sjreiling@benekeith.com](mailto:sjreiling@benekeith.com)

**Data Pool Provider:** Syndigo (<https://www.syndigo.com/>)

### **Ben E. Keith GLN Information**

Ben E. Keith Production GLN – 0046045000001

## **Implementation Overview**

1. Have your accurate item data loaded into your home data pool and ensure it is ready for publication
  - a. Contact your data pool for any education you might require to complete this step
2. Understand Ben E. Keith Attribute Requirements
  - a. Ben E. Keith attribute requirements are provided within this document
  - b. Ben E. Keith requires all GS1 foodservice attributes including supply chain, marketing information, nutritional and allergen information, and images
3. Initiate the GDSN trading partner relationship
  - a. Visit <https://www.syndigo.com/attribytes/gs1-subscription> to initiate
4. Items should be published to Ben E. Keith as described below:
  - a. Publish all products Ben E. Keith currently purchases from you
  - b. Publish all items that you sell to the Foodservice sector and would like Ben E. Keith to purchase in the future
5. Use the below guide to take further action after your publication

## **Implementation Overview (continued)**

As Ben E. Keith receives each item, you will receive a CIC “ACCEPT” response. Once you receive this response, no further action for that item is needed on your part. Later, Ben E. Keith reviews and synchronizes your item, you will receive a CIC “REVIEW”, “SYNCHRONIZED”, OR “REJECT” response as appropriate. If you should receive a “REVIEW” response, please respond to the associated message by correcting the specified data or contacting Ben E. Keith for clarification.

- **Accept:** Item information has been received by Ben E. Keith Data Pool and is ready for review, but no business decision has been made about that data.
- **Review:** Item information did not pass internal validations or audits. Please review the message that is contained within the CIC message, address the data discrepancies and republish the item.
- **Synchronized:** Item information has passed internal validations and audits. The item has been synchronized.
- **Rejected:** Ben E. Keith does not need to synchronize the item currently. This message status means that your GDSN Data Pool has been instructed not to deliver any more updates for this item to Ben E. Keith.

## Images Requirements

Ben E. Keith requires a minimum of 4 High Resolution images, 5 if internal packaging exists. All images should utilize GS1 approved file naming conventions. Please also ensure that any digital assets are appropriately assigned the correct referencedFileTypeCode through the GDSN so that the asset can properly be classified (i.e. PRODUCT\_IMAGE, DOCUMENT, VIDEO, etc).

**Examples** of GS1 of approved file naming conventions for each type of Ben E. Keith required imaging:

1. **Hero shot.** Product should be removed from its case in a raw or uncooked state.

Raw = GTIN\_C1CC

- C = Single Shot; Single Product (Hi-Resolution)
- 1 = Facing Indicator of Front
- C = Angle Identifier of Center
- C = Raw/Uncooked

2. **In Use.** A plated, staged, prepared, or styled shot of the product 'in use'.

Beauty Shot = GTIN\_C1CD

- C = Single Shot; Single Product (Hi-Resolution)
- 1 = Facing Indicator of Front
- C = Angle Identifier of Center
- D = Prepared

3. **Internal Packaging.** Product removed from the case while in its internal packaging (no image necessary if internal packaging does not exist)

Package = GTIN\_C1CB

- C = Single Shot; Single Product (Hi-Resolution)
- 1 = Facing Indicator of Front
- C = Angle Identifier of Center
- B = Inner Pack (as it would appear inside its packaging inside the case)

## **Images Requirements:** (continued)

### **4. Opened Case.** Photo of the opened case showing the secondary packaging inside

Open Case = GTIN\_C1CM

- C = Single Shot; Single Product (Hi-Resolution)
- 1 = Facing Indicator of Front
- C = Angle Identifier of Center
- M = Open Case (as it would look when an operator receives the product and opens the case)

### **5. Unopened Case.** Photo of the unopened case

Case = GTIN\_C1CA

- C = Single Shot; Single Product (Hi-Resolution)
- 1 = Facing Indicator of Front
- C = Angle Identifier of Center
- A = Case (as it would appear to the operator upon delivery)

Ben E. Keith follows the recommendations of the GS1 US Foodservice Initiative.
