Address Mapper App

Address Mapper App enables business users to have a geographical overview of all addresses. The App delivers seamless experiences based on geospatial data with built-in location intelligence of Azure Maps.

Address Mapper App

Target Audience

- Data Stewards
- Store Managers

Value Proposition

- **Seamless Integration and User Experience:** Designed for ease of use, the app integrates seamlessly with existing Syndigo MDM solutions. It offers a user-friendly interface that requires minimal training, allowing business users to quickly access and utilize geospatial data without disrupting their workflow.

- **Optimized Route Planning and Logistics:** Streamlines delivery routes and inventory management, reducing travel time and operational costs.

- **Data Accuracy and Integrity:** Ensures address data is up-to-date and accurate, reducing errors and enhancing the quality of master data.

- **Enhanced Decision Making with Geospatial Insights:** Provides store managers and data stewards with precise, real-time geospatial data to make informed decisions about store locations, and logistics.

Address Mapper App

Key Features

Geographical View of addresses for the Entities

In Map Dashboard page, it displays all Distribution Centers/Stores on the map. In Entity Manage Summary page, it displays only the Distributions Centers/Stores associated with the entity.
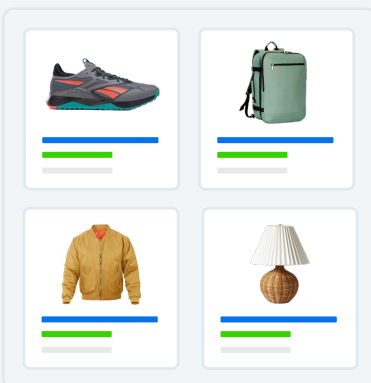

View addresses in the Map

The map displays all locations along with the pinned locations for each DC/Store. Drill down or zoom in to view the addresses within the proximity radius. Hover or click on the pinned locator to view the Distribution Center/Store details.
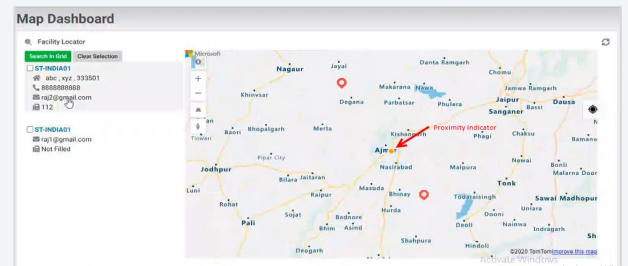

Facility Locator

Displays the list of available Distribution Centers/Stores in the Grid when you have drilled down and within proximity radius on the map.
