SAMPLES

Complete Products

- Samples should be identical to final in store products.
- No tears or damage to the packaging, or stickers that say "sales sample".
- Samples must be filled unless they can be empty and resemble the completed product (I.E. no window cut outs, not see through).

Packaging Flats

We accept packaging flats if...

- Flats can be reassembled onsite to look identical to the product in stores.
- No windows or plastic cut outs.
- This works best with boxes.
