

# **UniPro Foodservice**

GDSN Implementation Guide
Non-Food Items

Version 6 October 2020

### **OVERVIEW**

This document is intended for Suppliers who will be sending product data to UniPro Foodservice through the GDSN.

Suppliers currently publishing item information through the Global Data Synchronization Network (GDSN) for their Retail Trading Partners will need to populate additional data attributes to meet the UniPro Foodservice requirement.

For questions related to information contained within this guide, please contact:

Dave Devlin

UniPro Foodservice, Inc.

Departmental Vice President, Global Data Standards

770-799-7410 – Office

847-630-8416 - Mobile

### **Syndigo – Additional Contacts**

### **UniPro Foodservice GLN Information**

UniPro Foodservice Production GLN: 0018687000008

# **UniPro Foodservice Data Synchronization Environment**

Data Pool: Syndigo

# Publishing to UniPro Foodservice via the GDSN

### **Publications**

- 1. UniPro Foodservice requires their Suppliers to publish all products that the Supplier would like to make available for sale to any of the UniPro Foodservice member distributors. Items to include:
  - a. Items UniPro Foodservice members currently purchase
  - b. Items that Suppliers would like UniPro Foodservice members to purchase in the future
- 2. For the first UniPro Foodservice publication Suppliers to publish all products as "Initial Load".
- 3. Each product must contain the following three party names and GLN's:
  - a. Information Provider Name & GLN this would be your company GLN
  - b. Manufacturer Name & GLN typically, this would be your company, unless an alternate manufacturer produces the product
  - c. Brand Owner Name & GLN
    - i. Manufacturer Label publish with Brand Owner GLN set to Mfr GLN
    - ii. Customer/Operator Label publish with Operator Name & GLN
    - iii. UniPro Label publish with Brand Owner Name "UniPro Foodservice" and the GLN set to UniPro GLN: 0018687000008. Please use the following brand names in the brand field and ensure that case and spelling is identical to what's listed below:

Brighton Farms	Highland Market Essentials	Reflections
Companions	Highland Market Merit	SunSource Essentials
Companions Essentials	Highland Market Premier	SunSource Merit
Companions Merit	Ocean Horizons Essentials	SweetSource
Comsource	Ocean Horizons Merit	Versa Essentials
Copper Creek Cattle Company	Ocean Horizons Premier	Versa Merit
Cortona	OvenStone	Versa Premier
Crestview	ProMark	World Horizons
Gourmet Table	Rangeline	

- iv. UniPro Member Label
  - If Member is a direct data pool customer (issued a separate subscription request), publish directly to the Member GLN with Brand Owner GLN set to Member GLN
  - 2. If Member is not a direct data pool customer, consult with Member team to get direction.
- v. End User/Operator Label publish with Brand Owner GLN set to UniPro End User/Operator GLN

### **Implementation Overview**

The following outlines the key steps to implementation:

#### **Implementation Steps**

- 1. Initiate the GDSN trading partner relationship
  - a. Contact Syndigo to confirm your implementation option
  - b. Review the list of required attributes in this document
  - c. Confirm with UniPro the Information Provider GLN(s) you will be publishing from
  - d. UniPro Foodservice will create a subscription based upon your GLN(s)
- 2. Prepare product data for publication
- 3. Publish all products as "Initial Load" in initial publication
- 4. Investigate and respond to "Review" CIC responses. For questions or clarifications, please contact devlin@uniprofoodservice.com or bartz@uniprofoodservice.com.
- 5. Ongoing publications to be sent with "New" or "Update" status. To Inactivate a product, you can either publish with a discontinue date or send a delete publication. In either case, you should notify UniPro directly with the discontinued GTINs.
- 6. Review your UniPro data synchronization scorecards which are emailed out monthly. In addition to providing suppliers with information on audit status for all active products, the scorecards can be used to notify UniPro about discontinued items.

# **Catalog Item Confirmations (CIC's)**

UniPro Foodservice will automatically return a CIC to the Supplier. The CIC sent will be based upon the following:

#### **GDSN Response Messages:**

**Accepted**: Transmission received and can be processed.

#### **CIC Messages:**

**Received**: product record has been received and has passed UniPro Foodservice GDSN validations. This response will typically be sent within a few hours after receiving the publication.

**Review:** product does not pass UniPro Foodservice GDSN validations or product has failed UniPro Foodservice's audit process and therefore has data discrepancies to be reviewed and addressed. In most cases, the product record will be released to UniPro members with the data discrepancies. Reason for Review status will be transmitted in CIC999.

**Synchronized:** This response will be sent after all validations and audits have been successfully completed.

**Rejected:** product has been rejected by UniPro Foodservice. The item will be removed from UniPro Catalog and a Rejected CIC status will be sent (This will only be used when products that are not available for sale to UniPro Members have been published to UniPro.)

# **Required UniPro Foodservice Product Attributes**

Legend		
M = Mandatory Minimum subset of attributes that are required	R = Additional attributes requested by UniPro to fulfill the complete	C = Conditional
in order for UniPro to receive publication.	data requirement.
